

With Centennial Olympic Park, Woodruff Park, seven rail transit stations, traditional city street networks and blocks, new sidewalks and public infrastructure projects, Downtown Atlanta has the start of a sustainable, healthy and livable district. The following map and list show sustainable projects and initiatives:

With Centennial Olympic Park, Woodruff Park, seven rail transit stations, traditional city street networks and blocks, new sidewalks and public infrastructure projects, Downtown Atlanta has the start of a sustainable, healthy and livable district. The following map and list show sustainable projects and initiatives:

This is a continually growing map and list of projects and initiatives. We welcome your additions and suggestions. Please forward information and leads to Jennifer Ball at Central Atlanta Progress at jball@atlantadowntown.com and 404-522-3344

Sustainable Initiatives and Projects

Southface Energy Institute – headquartered in Downtown Atlanta and promotes sustainable homes, workplaces and communities through education, research, advocacy and technical assistance.

Sustainable Atlanta - program spearheaded by the City of Atlanta to connect businesses, organizations, institutions and residents to develop solutions and implement action plans to address the challenges and opportunities inherent in the relationship between environment, equity and the economy

Phillips Arena – first professional sports/concert facility in the world to receive LEED-EB certification

Turner Building Solar Canopy - 100 kw power generation per day

Atlanta Zero Waste Zone - food waste diversion, biofuel and compost generation

Water Recovery – notable efforts by the Georgia World Congress Center and Woodruff Park

Emory Midtown Hospital – local food initiative, zero waste zone and composting, waterless urinals

PATH Foundation Trail Connection – plans for Harris Street PATH to connect to Centennial Olympic Park

Atlanta Local Food Initiative – many Downtown restaurant participants

Streetscape Improvements

Marietta St and Centennial Olympic Park Dr - \$6.05 million beautification & safety enhancement of sidewalks & intersections between Five Points & Centennial Olympic Park

Simpson St and West Peachtree St - \$2.9 million beautification & safety enhancement of sidewalks & intersections between Civic Center MARTA Station & Centennial Olympic Park Drive including new traffic signals

Fairlie-Poplar Historic District Phase III - \$1.55 million beautification and safety enhancement of sidewalks and intersections on Walton and Nassau Streets.

Piedmont Avenue Enhancements - \$1.43 million beautification and safety enhancement of sidewalks and intersections between the Georgia State MARTA station and John Wesley Dobbs Avenue

Decatur Street Enhancements - \$1.37 million beautification and safety enhancement of sidewalks between Five Points and Piedmont Ave including a “Road Diet” and establishment of campus ‘main street’ by Georgia State University

Downtown and Midtown Wayfinding Signage System - \$3.1 million seamless directional signage system to assist vehicles and pedestrians.

Ivan Allen Jr. Boulevard - \$20 million arterial improvement to redesign, reconstruct and connect the previously discontinuous three streets – Jones Avenue, Simpson Street and Alexander Street – into one improved corridor to facilitate east-west mobility

Transportation Alternatives

9 MARTA Rail Stations

20 MARTA Bus Routes

32 Commuter Bus Routes

9 Zip Car (car share) locations

Emory Cliff Shuttle – free to all riders between the Emory Midtown and Clifton Road campuses

Imagine ITI Children’s Museum “Express” - fueled by environmentally-friendly bio-diesel fuel from waste cooking oil supplied by a partnership between Chick-fil-A at Peachtree Center and the Southern Alliance for Clean Energy.
