Analysis Observations

Downtown – Annualized 2017

- For this period, Downtown crime accounted for only 8% of the City's total crime, while representing almost half of the City's population.
- Zone 5 made more Quality of Life Arrests than any other Zone, comprising 42% of the City's Quality of Life Arrests.
- Larceny from Auto continues to be Downtown's most prevalent crime problem.
- Larceny represents 78% of all Downtown crime, with Larceny from Auto comprising 48% of total**.**
- **Most crime in Downtown is non-violent, with very little stranger-on-stranger violent crime.**
- Further analysis shows that a significant number of the larceny/auto crimes are related to items left in plain view inside unattended vehicles. Large number of victims (approximately 80%) are visitors from out of town.
- Drop in Robberies balanced with uptick in Property Crime.
