DOWNTOWN UPDATE

Public Safety
Assistant Chief Rodney Bryant
Major Scott Kreher
ADID’s David Wardell
DOWNTOWN SAFETY REPORT
1st HALF OF 2017

- Overall crime is down in the ADID, Zone 5 and the City.
- Continue to achieve great success in containing Larcenies from Auto through the Clean Car Campaign.
- Continue to reach out to Visitors and Event Attendees prior to their arrival where possible to be informed about Clean Car Campaign to apply simple practices.
- Addressing Quality of Life issues, and aggressively enforcing Monetary Solicitation.
- Police more mobile on Bikes and Segways.
- Directed Patrol Crime Suppression
- Joint Patrols and Field Investigative Team Operations with MARTA Police, GWCC Police, and GSU Police
- Pre-Arrest Diversion Program Rollout

www.AtlantaPD.org
Robbery has shown the biggest reduction compared to last year, dropping 35%.

Larceny From Vehicles is the driving crime for the ADID area, but has dropped 2% since last year.

Overall, Part I Crimes are down 6% compared to last year at this time.

Date Range: Jan 1 to June 30

*The FBI revised its definition of rape to include additional categories. For the new definition, see https://ucr.fbi.gov/recent-program-updates/new-rape-definition-frequently-asked-questions. As of Jan 1, 2017, APD started using the revised definition for Rape.
ADID AREA MONETARY SOLICITATION ACTIVITY • 2017 6-MONTH

- There were 5,566 panhandling interventions by both APD and Ambassadors for the first 6-months of 2017.
- A high concentration of these interventions occurred in the area near Peachtree St NE and Andrew Young International Blvd NW.

Crime data prepared by: John Moses, Phoenix Analytics Inc.

* Total numbers were impacted by adjusting for Beat 509 added.

Source – APD

**2017 FBI added additional categories to be considered rape.
Analysis Observations
Downtown – First six months 2016

For this period, Downtown crime accounted for only 6% of the City’s total crime, while representing almost half of the City’s population. This is further exemplified by the high density visitor, conventioneer, and special event attendees.

Zone 5 makes more arrests (30% of City) than any other Zone in the Department, and Quality of life related offenses represent the majority of Downtown arrests.

Larceny from Auto continues to be Downtown’s most prevalent crime problem. However, we continue to work with our partners and make progress, with a reduction of 2% again this year, but a steady decline of almost 50% over the last 8 years.

Larceny represents 77% of all Downtown crime, with Larceny from Auto comprising 46%.

Most crime in Downtown is non-violent, with very little stranger-on-stranger violent crime.

Further analysis shows that a significant number of the larceny/auto crimes are related to items left in plain view inside unattended vehicles. Large number of victims (approximately 80%) are visitors from out of town. Increased number of events has increased number of vehicles in Downtown.

Overall incidents of Part I crime is down 6% in Downtown and Zone 5 from last year. This represents a significant reduction from last year, which was a record crime reduction year.
